Vol. Forty-Second.

The DEMOCRATIC NORTHWEST today begins its 42d year, and it affords us the utmost pleasure to state that never before at any time during its existence of forty-two years has it had as Banking House many subscribers as it now has. New subscribers are coming in every day, until at the present time over 2,400 papers are distributed weekly. But there is room for more upon our subscription books; will our friends assist in swelling the list to 3,000?

NOTICE.

In looking over the list of subscribers for the News, which has come into our possession, we find many who are in arrears, ranging from one to two years and over. All such are hereby notified that payment must be made within a reasonable time or the accounts will be placed in the hands of a collector. Pills For Calamity Howlers.

The "calamity howlers" are predictng that the country is "going to the dogs" because the party now in power are threatening to wipe out the McKinley bill. The press of the high protectionists take great delight in printing items of reductions, shut downs, etc., but are very careful to say nothing of the starting up of factories and mills. Now we will just cite a few which have resumed within the past few weeks.

DEAR SIE:- During the last six months we have been delayed with our matters owing to the depressed state of things here financially, compelling us to make some alteration in our plans. We have, however, just succeeded in completing arrangements which will enable the company to complete the survey and the preliminary work from Chicago to New York; to begin the construction; and having sold the bonds, the line will now be completed in 1898, two years sooner than was originally expected." Therefore, as a on as we have completed certain arrangements on the other side, the construct on of the main line will commence and the work be pushed vigorously. I shall return home in February. road bill, drafted by Hon. J. F. Meyers, in on Friday last: HENRY COURTY'S ROAD BILL.

A new departure in road bills has been made by Mr. Meyers, of Henry county, and the measure is being indorsed by some of the best authority in the State on road questions. Mr. Meyers' bill applies only to Henry county. It provides that when a majority of resident land owners of a township petition the trustees for improved roads. these trustees can proceed to levy a tax on the duplicate of the township, the money to be used in buying material and building the roads. The work of hauling the material is to be divided by the trustees among the land owners along the line of the proposed improvement, according to the amount of land owned along the highway to be improved. These land owners can either do this work themselves or pay their proportion in cash to be used for that purpose.

Mr. Meyers has sheat considerable tim n perfecting this bill, and as it is sure to be come a law, its work in Henry county will be closely watched by other northwestern counties.

The occasion was enjoyed by a large number, but none more so than the old gentleman himself who was quite happy in having his friends and peighbors thus remember him. An easy self-rocking chair was presented him by the following: Carl H. Hover, H. Bostelman, H. Stockman, H. Schultz, H. Kruse, F. Bartels, H. Tietje, W. Wichers, John H. Rohrs, Julia Haase, H. The Apple Crop. For the first time in the experience of simples. At least at no time during the past fifteen years have oranges sold so low as apples. A barrel of apples is worth more money to day than a barrel of oranges, and three times as many apples can be sold with this descrepancy in price existing. The fallacy of oranges growers and shippers that a scarcity of apples advances the price or value of the orange, is more clearly demonstrated this year than ever. A man who calls for a barrel of apples will not accept a simquantity of oranges at the same price, and very rarely can the orange be placed as a substitute, cheap as it may appear. Briefly, the orange is a lu ury and as such is neglected, while the apple can be utilized in so many various ways as to be considered almost a necessity. With these facts before us, a careful observer must be impressed with the belief that in the future the apple orchard promises more then the orange grove.
